

GLOBAL LEGAL ADVISERS

LEAGUE TABLES

First 3Q 2021

Bloomberg

The Bloomberg Capital Markets Tables represent the top arrangers, bookrunners and advisors across a broad array of deal types including loans, bonds, equity and M&A transactions; according to Bloomberg standards.

LEAG<GO> for a full range of league tables

MA<GO> for a full range of merger & acquisition tables

Due to the dynamic nature of the Professional Service product, league table rankings may vary between this release and data found on the Bloomberg Professional Service.

General Guidelines

Credit is based on the total amount of the offering sold to the public. Full credit is awarded to the sole bookrunning manager or split equally among joint bookrunning managers; unless full, explicit breakdown of bookrunning is provided by an involved party. Regional and local tables are identified based on factors such as currency, market of issuer and/or country of risk/incorporation.

Fixed Income

All transaction must have a maturity or a call/put option of minimum 18 month. Make-whole calls, provisional calls/puts are exempt from this rule. Increases and fungible securities are also subject to the 18 month minimum period. Note: criteria may vary for some local and/or regional tables. USD and CAD denominated 144A/REGS issues are credited 100% to the 144A tranche and 0% to the REG S tranche. Non-USD/CAD denominated 144A/REGS issues are credited 100% to the REGS tranche and 0% to the 144A tranche. New money portions of exchange offers are eligible for credit. Investment grade and high yield transactions are based on official, expected, and provisional ratings by Fitch, Moody's and S&P. When rating is split, transaction will appear in the relevant investment grade table. Note: Criteria may vary for some local and/or regional table.

Exclusions: Accredited investor tranches, asset-backed issues, auction note agencies, collateralized bond obligations, collateralized loan obligations, commercial paper, municipal bonds, mortgage-backed issues, remarketed issues, repackaged bonds, government borrowing scheme retained bonds, variable principal redemption issues, variable interest equity-linked issues, and credit linked notes, selling group agency issues, strips, units, warrants, self-led under USD 50 million. Note: Criteria may vary for some local and/or regional tables.

Equities-Linked

Equity-linked transactions: Convertible bonds, convertible preferred stock and exchangeable bonds. Only issues that mature and are callable/puttable in 12 months or longer are included. Make-whole call, provisional call and provisional put are exempted from this rule. Convertible bonds with attached warrants are included. These are defined as synthetic convertibles with the combination of a fixed income instrument and warrants which can be converted into shares. The embedded warrant can be detachable or non-detachable but the bond and the warrant must be sold as a unit, i.e. there cannot be separate book building for the warrant and the bond.

Exclusions: Redemption-linked instruments, reverse convertibles or similar instruments, synthetics convertibles, issues convertible into participation in an underlying fund or investment trust, pre-IPO convertible instruments, certain lower hierarchy titles, i.e. Jr Bookrunner.

Equities

Equity market transactions: Initial public offerings, additional offerings of common stocks, units, and depositary receipts (ADRs, GDRs, etc) and rights offerings.

Exclusions: Non-underwritten/best efforts, privately placed transactions, funds, self-led, preferred offerings, pre-negotiated offerings, certain lower hierarchy titles, i.e. Jr Bookrunner. Note: Criteria may vary for some local and/or regional tables.

Loans

Includes executed syndicated loans transactions. Full credit is awarded to the banks satisfying the highest of the titles. Full credit is awarded to the sole bookrunning manager or split equally among joint bookrunning managers. Credit is allocated to amended or amended and restated transactions, where each modification is 100% at the lender's option and not as a result of events already built into the original credit agreement. Credit is awarded for the following structural changes only: maturity extensions of three months or more, incremental basis for increased in deal size, reduction in pricing, full release of collateral.

Exclusions: Bilateral transactions, transactions with a maturity of less than three months, loans withdrawn prior to signing, amended or restated securitizations, receivable and guarantee facilities, loan pacts, and standalone guarantee facilities/letters of credit.

US Municipals

Standard published tables will award deal credit based on true economic credit as reported by the issuer or the bookrunner. In absence of reported economic credit, 100% will be assigned to the bookrunner.

Dollar value of credit will be assigned based on the percentage allocation reported for economic credit (or designated by the user in a custom table) and applied against the total par value of the bonds issued. Zero coupon bonds (CABS) or intermediate appreciation bonds (convertible CABS) will be included at the market value (accreted value) on the interest accrual date.

All debt issued by municipal issuers will be eligible for league credit. Taxable and tax-exempt debt is eligible for league credit unless a table includes specific tax type criteria. "Tax-exempt" is defined as federally tax-exempt and includes bonds subject to AMT and bonds designated as Bank Qualified.

Each table is provided in three formats. "Economic Credit" displays rankings based on true economic credit allocations of applicable deals. "Left Lead" assigns 100% credit to the bookrunner and 0% to all other syndicate participants. "Deal Count" displays rankings based on deal quantity rather than aggregate economic credit amounts. A "deal" refers to the aggregate series within an issuance led by a particular underwriter or syndicate. For example: a \$50 million issuance is split into three series- a \$10 million Series A, a \$20 million Series B, and a \$20 million Series C. Bank 1 is the underwriter of Series A & B, while Bank 2 is the underwriter of Series C. Bank 1 would have one "deal" worth \$30 million, and Bank 2 would have one "deal" worth \$20 million.

Exclusions: Derivatives, private placements, variable rate preferred securities, municipal commercial paper, and remarketings are excluded from municipal league table eligibility.

The full version of Bloomberg's League table Standards & Guidelines can be accessed and subscribed to on the Reports tab on LEAG<GO>.
