## October 27 – 29, 2024

The Small Business Investor Alliance's National Summit for Middle Market Funds is the lower middle market's signature networking and fundraising event. The annual conference is curated to inspire, educate, and celebrate the industry — and to facilitate senior-level, high quality networking between lower middle market funds and investors.

The National Summit features CapitaLinx, SBIA's unique fundraising opportunity that utilizes a strategic GP/LP matchmaking platform between institutional investors and lower middle market funds.

Every year, the National Summit for Middle Market Funds:

- Attracts more than 500 lower middle market fund managers, limited partners, investment bankers, and industry professionals;
- Offers a collegial networking environment with senior-level decision makers;
- Includes thoughtfully planned content sessions, inspiring keynote speakers, and timely updates on the legislative and regulatory agendas in Washington;
- Features the popular Dealmakers' Wine Tasting reception, a unique opportunity for GPs to connect with all participating limited partners; and
- Serves as a host for CapitaLinx, SBIA's exclusive matchmaking opportunity for institutional investors and lower middle market funds.
