February 24 – 25, 2026

Matthew Berns, Jason Cover, and Michael Yaghi will be speaking at the 2026 Online Lenders Alliance's (OLA) Legal Issues Conference, which will be held on February 24-25 in Arlington, Virginia. Their panel, titled "Navigating State AG and Regulatory Investigations Involving Online Lending," will show how state attorneys general and financial regulators are reshaping the online lending landscape through aggressive enforcement. This panel will decode the latest trends in multistate AG actions and provide practical advice on formulating a response to the same. We will cover marketing-related risks (including disclosure, dark patterns, data practices and the use of AI), scrutiny of novel and alternative lending products and other emerging areas. Attendees will leave with a practical roadmap to mitigate enforcement exposure, align compliance programs with current expectations, and anticipate the next wave of state-level developments.
