ABA Life Sciences and Product Liability Seminar — October 21, 2026

Chubb
2000 Arch Street
Philadelphia, PA 19103

SPEAKERS

[Brett Mason](#)

Troutman Pepper Locke Partner [Brett Mason](#) will be speaking on the panel, “AI – Review of Recent Case Law”, during the ABA Life Sciences and Product Liability Seminar on October 21, 2026.

As artificial intelligence becomes increasingly integrated into consumer products, medical devices, vehicles, and other AI-enabled products, courts are confronting new questions of product liability and responsibility for AI-driven decisions. This CLE session will examine recent case law and emerging trends involving product defects, failure-to-warn claims, causation, and the evolving allocation of liability among manufacturers, developers, and users. Following the program, join fellow attendees for a networking reception to continue the conversation and build valuable professional connections.
