AI Patenting Handbook

IPO Law Journal

WRITTEN BY

Judy Naamat

New York's **Judy Naamat**, member of Locke Lord's Patent Strategies Practice Group, co-authored the AI Patenting Handbook in collaboration with members of the Intellectual Property Owners Association's Software Related Inventions and the AI and Other Emerging Technologies Committees. Published by IPO Law Journal, the whitepaper is a comprehensive guide to understanding, prosecuting and enforcing patents related to AI, domestically and internationally. Naamat contributed to a section on specification drafting for patents focused on AI inventions, which covers subject matter eligibility and the written description, enablement and definiteness requirements and more.

Read the full AI Patenting Handbook.
