---

New York's [Judy Naamat](#), member of Troutman Pepper Locke's Intellectual Property Practice Group, co-authored the AI Patenting Handbook Version 3 in collaboration with members of the Intellectual Property Owners Association's Artificial Intelligence, Data, & New Emerging Technologies Committee. Published by *IPO Law Journal*, the whitepaper is a comprehensive guide to understanding, prosecuting and enforcing patents related to AI, domestically and internationally. Naamat contributed to a section on specification drafting for patents focused on AI inventions, which covers the subject matter eligibility and the written description, enablement and definiteness requirements and more.

The AI Patenting Handbook V3 is currently available to IPO members through the *IPO Law Journal*.
