The U.S. battery storage sector has been booming since the passage of the Inflation Reduction Act last August 2022, but the rapid growth of batteries can be seen across the globe.

On May 24, Troutman Pepper held a roundtable discussion in London during Tamarindo's *Financing Wind Annual Conference*. This discussion — focused on the impacts of the IRA on the energy storage industry in the U.S. and Europe and wider challenges for the sector — brought together developers, financiers, and advisors in the battery storage sector.

For key insights and takeaways from the roundtable, read the full Tamarindo report, "[Battery Storage in Europe](#)."
