

Beware of Goblins, Ghouls, and Phishing Scams – Cybersecurity Awareness Month

WRITTEN BY

Sadia Mirza | Kamran Salour

For nearly 20 years, October has served as *Cybersecurity Awareness Month*. To highlight the importance of being cyber ready, we will release weekly tricks and treats as part of this four-part series to make your business more cyber savvy.

In our first installment, “*Beware of Goblins, Ghouls, and Phishing Scams*,” businesses can use the template email below to remind employees to stay alert as cybercriminals take advantage of the holidays, beginning with the spooky season. The template provides:

1. An overview of “phishing.”
2. Common scams during the holiday season.
3. Tips on how to spot a phishing scam.
4. Instructions on what to do if an employee receives a phishing email.

CYBERSECURITY AWARENESS MONTH

Beware of Goblins, Ghouls, and Phishing Scams – A draft email template.
