Beyond “Good Enough:” How the Professional Standard of Care is Influencing Construction Manager Performance Accountability and Liability

Webinar, Virtual

SPEAKERS

[Jamey B. Collidge](#)

Jamey Collidge will be joined by Andrew Drobni and Patrick Jaroski of Ankura Consulting Group and Ethan Teiger of Consigli Construction Co., Inc. to present “Beyond ‘Good Enough:’ How the Professional Standard of Care is Influencing Construction Manager Performance Accountability and Liability,” hosted by the Society of Construction Law North America. The program will take place on Tuesday, May 19, from 2:00 to 3:30 p.m. EDT.

The session will examine how professional “standard of care” obligations, once limited to architects and engineers, are increasingly being applied to Construction Managers and General Contractors. It will explore the impact of these evolving contractual provisions on project contracting and delivery, performance evaluation, and the resolution of claims and disputes before, during, and after project execution.
