Troutman Pepper Locke is a proud sponsor of The Bond Buyer Infrastructure, September 29-30 in Boston, Massachusetts. This year's event brings together leaders with a vested interest in how to repair, rebuild and invest in the country's vast infrastructure needs through innovative deal structures while navigating the shifting policies and growing demands from investors and the public.

At the event, Jennifer Capasso Mendonca will serve as a panelist for "Housing Opportunities Emerge", during which panelists will discuss challenges in qualifying for housing credits and preparing for new housing opportunities.
