Building for AI, With AI: Law and Risk in the Data Center Decade

Construction Law in Georgia

Courtyard Atlanta Midtown
640-1 Peachtree Street NE
Atlanta, GA 30308

SPEAKERS

[Alexandra C. "Allie" Apple](#) | [Anna Parks Muecke](#)

[Alexandra "Allie" Apple](#) and [Anna Parks Muecke](#) will present "Building for AI, With AI: Law and Risk in the Data Center Decade" at the Construction Law in Georgia seminar on Wednesday, October 7, from 3:30 – 4:15 pm ET.

This session will cover how AI is reshaping construction from two directions at once: changing how projects are documented and delivered, and driving the largest wave of data center construction the U.S. has seen. Topics include:

- Practical uses of AI in construction practice, and where the tools fail
- Confidentiality, privilege, and evidentiary risk in AI-assisted work product
- What is driving the data center boom, and what makes these projects different to build
- Power, equipment, and schedule risk on data center projects
- Turnover, commissioning, and performance disputes
- Business-level risks of entering the data center market
