# Capacity Crunch Series Continued: Balancing Reliability, Unprecedented Load Growth & Affordability in the Energy Transition (Part 2)

## Energy Law Insights

### SPEAKERS

Josh Combs | Allison Pryor

---

Join Troutman Pepper energy attorneys Allison Pryor and Josh Combs as they explore how utilities, regulators, and stakeholders are working to balance unprecedented load growth, reliability, and affordability amidst the ongoing capacity crunch. This video in the series focuses specifically on affordability, energy efficiency, the role of natural gas, and key considerations for regulators and decision-makers.

- The importance of customer affordability and discusses utility initiatives and creative solutions for tackling affordability
- Benefit of customer programs and pilot program collaboration
- Natural gas as continued bridge during crunch and important tool in all of the above strategy
- Regulatory considerations and takeaways for balancing rapid demand, affordability, and reliability

The energy sector is currently undergoing seismic change and with that change comes tremendous opportunity. Our energy video series, which features nationally recognized Troutman Pepper partners as they discuss a vast array of unique and complex challenges that face the energy industry.
