Charging Transportation Electrification Forward: Identifying Opportunities & Regulatory Solutions in the Rapidly Evolving EV Market

Energy Law Insights

SPEAKERS

Josh Combs | Michael Drew Wooldridge

The rapidly evolving electric vehicle (EV) market presents electric utilities, EV service providers, private developers, and other stakeholders with several challenges and opportunities. These complex, and often novel, regulatory and legislative issues require constructive collaboration and creative solutions to identify opportunities and maximize benefits. In this video, Troutman Pepper Partner Drew Wooldridge and Associate Josh Combs delve into the key issues shaping the market, and offer practical insights for navigating this dynamic ecosystem.

- EV charging infrastructure, ownership, and adoption-related issues and trends
- EV-related legislative activity and issues
- Role of Public Utilities and Private Industry | Creative legislative solutions & consensus resolutions
- Charging forward with key takeaways for public utilities, EV service providers, private developers, and other stakeholders

The energy sector is currently undergoing seismic change and with that change comes tremendous opportunity. Our energy video series, which features nationally recognized Troutman Pepper partners as they discuss a vast array of unique and complex challenges that face the energy industry.
