Colorado AI Act Repealed and Replaced

Zoom

SPEAKERS

[David M. Stauss](#)

The Colorado legislature passed a bill to replace Colorado's existing artificial intelligence (AI) law with a more business-friendly regulatory regime focused on disclosures and limited consumer rights but, in doing so, added to the growing complexity of state AI regulation.

Join us for a first-in-the-nation webinar analyzing this development, and read our analysis of the bill [here](#).
