SPEAKERS

Wednesday, September 29 • 3:00 – 4:00 p.m. ET

Troutman Pepper's Women's Leadership and Growth Network sponsored a conversation, moderated by Joan Arnold, focusing on Cross Border Transactions. Join us for an interactive discussion among female partners, in which we define cross border transactions, and address how each of the partner's particular area of law plays a key role. We will focus on cross border M&A, and we have an interactive conversation discussing particular areas of concern and how to approach them in advising on the deal. We also address what we see as potentially on the horizon that may change cross border transactions.
