

Cyber Capsule – September 2022

WRITTEN BY

Sadia Mirza | Kamran Salour

Welcome to our latest edition of the Cyber Capsule. September followed trends we have seen the last few months, with legislation directed at funding to support state and local governments in their quest to stop cyberattacks; programs encouraging information sharing to help companies, particularly those in health care to better position themselves against cyberthreats; and of course, the latest sagas from the threat actor world.
