Damages Decoded: How Receiving and Losing Trade Secrets Can Cost Your Company Millions

Webinar

SPEAKERS

[Evan Gibbs](#) | [Gwendolyn Tawresey](#) | [Andrew Reed](#) | [Bilal Zaheer](#)

Join us for a panel discussion with corporate espionage attorneys Evan Gibbs, Gwendolyn Tawresey, Andrew Reed, and Bilal Zaheer as they share their knowledge on trade secrets damages and other remedies. This panel will spin deception into dollars to show why organizations need to be vigilant not just about pursuing their own claims for trade secret theft, but also about receiving someone else's trade secrets—even unknowingly.

Topics will include a range of trade secret remedies, including injunctions, disgorgement, royalties, fee-shifting, and more. This webinar will cover the main remedies available in trade secret litigation and offer practical strategies to quantify damages, avoid double counting, and set appropriate timeframes. This webinar will also address key evidentiary and expert issues, as well as compliance and enforcement mechanisms. The program aims to provide actionable intake controls and response protocols to help you identify, manage, and reduce risk from incoming information.
