We are kicking off season five of the Troutman Pepper Battery + Storage Podcast with an electrifying discussion of the evolution of the battery storage sector with host Bill Derasmo and Dr. Kai-Philipp Kairies, CEO of ACCURE Battery Intelligence. They explore the amazing advances in battery analytics and diagnostic tools championed by ACCURE. As grid-scale storage grows in size and scope, the analytic tools brought to the table by ACCURE will only become more valuable to owners and operators of grid-scale installations.
