Developments in Artificial Intelligence Under Consumer Lending Laws

Virtual

SPEAKERS

[Steven D. Allison](#) | [Samrah Mahmoud](#)

Thursday, May 30 • 11:00 a.m. CT

This is going to be a 60 minute training regarding recent developments on the impact of AI-related technologies under consumer protection statutes, with a focus on the Telephone Consumer Protection Act (TCPA), California Invasion of Privacy Act (CIPA), and AI-related legislation. We will discuss the legal background, theories of liability, enforcement, and compliance best practices for these statutes, alongside the implications of AI technologies like chatbots and session replay. The program will also address recent legal developments and guidance on AI provided by key federal enforcement agencies, such as the CFPB and the FCC, highlighting the potential risks associated with these technologies.

This session is pending approval for MCLE credit for Delaware, Colorado, Florida, Georgia, New Jersey, New York, Nebraska, Pennsylvania, and Wisconsin. Troutman Pepper will automatically seek credit in the states where we have office locations unless state restrictions apply. Credit for other jurisdictions may be available upon request. For those licensed in California, Illinois, New Jersey, New York, and/or Pennsylvania, certificates will be distributed within 30 business days. If you have questions about CLE credits, please email CLE Management at CLEManagement@troutman.com.

Please contact Marissa Burcham at marissa.burcham@troutman.com for more information.
