eMerge 365 Webinar – From Chaos to Control: Key Pillars of Collaboration Site Data Governance

Zoom

SPEAKERS

[Jason Lichter](#) | [Jennifer Shea Knox](#) | [Antonio S. Avant](#)

Please join Jason Lichter, Jennifer Knox, and Antonio Avant for an insightful discussion on the essential strategies for effective data management in today's collaborative workplace. They will highlight the rapid growth of collaboration platforms like Slack and Microsoft Teams, the importance of robust governance policies, and the need for ongoing employee education and support.

The team will also discuss critical topics such as adoption trends for major platforms, retention management, site administration, employee training, and practical guidance for overcoming data governance challenges. Whether you're responsible for managing collaboration tools or interested in best practices for compliance and security, this webinar will provide valuable insights and actionable recommendations.

Don't miss this opportunity to enhance your understanding and ensure your organization's data remains secure, compliant, and well-managed.
