Explore the Impact of Point-of-Sale Finance in Our Upcoming Series

The Consumer Finance Podcast

SPEAKERS

[Chris J. Willis](#) | [Jason M. Cover](#)

In this episode of *The Consumer Finance Podcast*, Chris Willis is joined by Jason Cover to introduce an upcoming special series focused on point-of-sale finance, a rapidly evolving sector in consumer financial services. This teaser provides a sneak peek into increasingly popular topics that will be discussed throughout the series, including innovative point-of-sale finance solutions such as payment methods beyond traditional credit and debit cards, in addition to a diverse range of products and the dynamic interactions between fintech lenders, financial institutions, and merchants. The series will also explore foundational concepts and specific models across various industries, such as home improvements and medical financing, setting the stage for a deep dive into the transformative impact of point-of-sale finance on consumer transactions.
