Chuck Sensiba, a partner with Troutman Pepper, is quoted in the *S&P Global Commodity Insights* article, “[FERC Hopes to Act Within Months to Ensure Markets Compensate Flexibility: Glick.](#)”

Among other changes, licensing proposal recommends an expedited, two-year licensing process for certain projects at qualifying non-powered dams. This two-year process would help hydropower compete with renewables that can be developed much more quickly, Charles Sensiba, a partner with Troutman Pepper who helped craft the deal, said at the conference.
