Locke Lord is a proud sponsor of the Florida Venture Forum's Annual Early Stage Venture Conference, which will take place June 4-5, 2024 in Orlando, FL.

The Early Stage Venture Conference is one of the largest gatherings of angel and early stage investors in Florida. The two-day conference includes presentations from 40 selected early stage companies, as well as keynote speakers, educational sessions, and other networking opportunities. The event will also feature the Space Florida AeroTech Summit, which will showcase presentations from early stage Aerotech companies, and the Statewide Collegiate Start-Up Competition, in which students from participating universities compete for funding by pitching to venture investors.
