Organizations continue to face new issues, regulations and threats relating to privacy and cybersecurity. Over the next few months, Locke Lord lawyers will tackle some of your most pressing concerns in a series of complimentary webinars discussing practical, real-world challenges facing organizations, including compliance, business operations, data incidents, and investigations, litigation and enforcement. Sign up below for each program that interests you or sign up for the entire series.

Join us on Thursday, June 10 at 1:00pm ET where panelists will discuss risk profiles with practical guidance for incident preparedness, planning and response. Panelists will help make sense of inconsistent, industry specific requirements for breach response with practical approaches to breach investigation, legal analysis and notifications. Issues specific to vendor breaches, including for financial services and health care companies, will be explored.

Presenters:
