GenAI: Practical Use Cases and Cautionary Tales

Zoom

SPEAKERS

[Alison A. Grounds](#) | [Jim Calvert](#) | [Jason Lichter](#) | [Michael I. Frankel](#) | [Antonio S. Avant](#)

Join us for an engaging webinar where our attorneys and technologists will explore the transformative potential of Generative AI. Our team will offer insights into how GenAI can be effectively integrated across organizations to drive creativity, productivity, and efficiency. We will present real-world examples that highlight the benefits of GenAI while also addressing the legal and ethical challenges it can introduce. We will provide guidance on navigating these complexities, helping your business to safely and responsibly deploy GenAI solutions.

Attendees will gain a comprehensive understanding of the practical applications of GenAI, along with strategies to identify and manage associated risks. Our team will offer valuable legal insights into litigation, data privacy, and compliance considerations, equipping you with the knowledge to make informed decisions and protect your business interests. Don't miss this opportunity to empower your organization with the experience needed to thrive in the evolving landscape of AI technologies.
