Heightened State Oversight Signals Investors to Refresh Health Care Investment Platforms

WRITTEN BY

Joseph F. Kadlec | Erin S. Whaley | Emma E. Trivax

On January 1, California's long-anticipated legislation regulating private equity investments in health care will go into effect — and ultimately set the tone for investors in 2026. California's [AB 1415](#) and [SB 351](#) expand state oversight of health care transactions and aim to limit investor control over clinical decision-making in portfolio medical practices.
