Her Insights: An Afternoon of CLEs on AI, Cyber, and Employment Law

Please join us for an exclusive in-person CLE series hosted in our offices nationwide, bringing together clients and industry leaders for an afternoon of practical insights, emerging trends, and meaningful discussion. This multi-panel program will feature three hours of CLE, including ethics credit, with sessions led by a distinguished group of women attorneys at the forefront of their fields.

Over the course of the program, our speakers will examine the issues most affecting businesses today:

- **AI, Ethics & Responsible Innovation:** Explore the rapidly shifting AI landscape—from ethical obligations and data governance to regulatory developments that every organization should be monitoring. Gain actionable guidance for navigating risk, enabling innovation, and building trust in AI-driven environments.
- **Incident Response, Breach Litigation & Investigations:** Hear real-world lessons from recent incidents, regulatory actions, and litigation trends. Our panel will share strategies for strengthening readiness, coordinating response efforts, and mitigating exposure when a cyber event occurs.
- **Labor & Employment:** Learn how organizations are adapting to new workplace expectations, evolving employment laws, and rising litigation. The panel will cover compliance challenges, culture and conduct considerations, and trends reshaping the employer–employee relationship.

This program is designed to equip you with timely, business-focused insights and practical takeaways you can bring back to your organization. We will wrap up the day with a networking reception offering additional avenues for connection.

Here's where we'll be headed. Registration for each location will open as the event date approaches.
