Entrance on 45th Street

New York, NY 10036

SPEAKERS

[Alison A. Grounds](#)

Alison Grounds, founder and managing partner of Troutman eMerge, will speak on the panel “Using Generative AI in eDiscovery” as part of the Hot Topics in Electronic Discovery 2025: What Corporate and Outside Counsel Need to Know event. The event will take place on Tuesday, October 21, from 9:00 a.m. to 4:45 p.m. ET.

The panel will focus on Generative AI in eDiscovery, including for relevancy determination, identification of privileged information and fact development. After completing this session, participants will be able to understand the potential use cases of Generative AI for eDiscovery, including early case assessment, relevancy determination, privilege identification and fact development. Participants will also gain a general familiarity with the available Generative AI tools and how to evaluate and select tools.
