How Battery Storage Is Reshaping the Energy Transition Ecosystem: An Interview With FlexGen CEO Kelcy Pegler

Battery + Storage Podcast

SPEAKERS

William R. Derasmo

Troutman Pepper energy partner Bill Derasmo talks with battery and storage experts from across the industry. The podcast shares the unique perspectives of industry veterans and thought leaders, exploring how they are deploying this new and exciting technology.

In this episode, Bill speaks with Kelcy Pegler, the CEO of FlexGen, a North Carolina-based leading energy storage technology solutions and services provider that delivers advisory, product technology, and operational maintenance services. The podcast explores the similarities between the emerging battery storage market and the solar market of years past, the role of battery storage as a platform that enables the energy transition, the ways in which utilities can make energy storage work for them, and much more. Don't miss Kelcy's inspirational introspection that led him to launch FlexGen — spoiler alert — part of it involves his young children.
