How to Choose the Right AI Tool for the Job in Litigation Workflows

RelFest Chicago

Hyatt Regency Chicago
151 E Wacker Drive
Chicago, IL 60601

SPEAKERS

[Jim Calvert](#)

Jim Calvert will present on the panel “How to Choose the Right AI Tool for the Job in Litigation Workflows” as part of RelFest Chicago. The panel will take place on Wednesday, September 30, from 2:15 – 3:15 pm CT.

Legal teams have more AI options than ever, but knowing which tool to use for which task is becoming just as important as knowing how to use AI at all. This session will explore how to evaluate different AI tools and platforms for common litigation jobs, from drafting and analysis to digging into data, building timelines, preparing for depositions, and getting trial-ready. Panelists will discuss where Relativity aiR fits especially well, where other tools may play a role, and how to think about quality control, validation, and human oversight across each use case.
