Alison Grounds, Jessica Kozlov Davis, Christopher Forstner, and Andrew Madeiros will be speaking during the “Consolidating Your Firm’s AI Expertise: Amplifying and Unifying Talent and Resources Capable of Identifying and Recognizing Opportunity and Risk” session for Inside Practice’s Inflection Point: The Legal AI Revolution Part 2 virtual forum. Their session will occur on September 14, 2023, at 12:00 p.m. ET.

This illuminating panel discussion will shed some light on how Troutman Pepper is approaching the task of consolidating and leveraging the collective skills and expertise of the firm’s attorneys and other allied professionals from across the firm to pilot, vet, guide, and educate around both the internal and operational elements – as well as external, client-facing and advisory challenges and opportunities that generative AI brings to bear.
