**June 11–12, 2025 • 8:00 a.m. – 5:45 p.m. PT**

Troutman Pepper Locke is a proud sponsor of the 2025 Infocast Energy Storage Finance & Investment Summit, which will be taking place June 11-12, 2025 in San Diego, CA. This event will bring together the entire storage community, including the country's leading developers, tax equity investors, capital and debt providers, tax advisors, market analysts, offtakers, and more to provide a deep dive into navigating the uncertainties and moving forward with cutting-edge approaches for finance and investment across the full range of markets and business strategies in this dynamic space.

On June 11, Lloyd MacNeil will be moderating the session on "Understanding Tax Equity, Tax Credit Sales and Hybrid Structures," where he and his panel will discuss the latest trends, changes to tax equity calculations, and examine what's expected for the future of the markets. Issues this dynamic panel will examine include how the new administration may affect the tax equity and tax credit markets; and how hybrid structures may be used to adapt to the evolving landscape.
