---

Locke Lord LLP and Novarica look at new regulatory developments in analytics, data usage and data security that have the potential to affect insurer technology strategy.

This webinar covers federal guidelines and specific state regulations surrounding the use of e-signatures and e-delivery, the impact of FCRA regulations on the storage of consumer credit information, and data security obligations for insurers and their third-party service providers.

**Brian Casey**, **Benjamin Sykes** and **Daron Janis** from Locke Lord and Mitch Wein, Senior Vice President of Research and Consulting at Novarica will be presenters.
