Interview with American Solar and Storage Guru Who Happens to Live in Shanghai: Andy Klump, CEO of Clean Energy Associates

Battery + Storage Podcast

SPEAKERS

[William R. Derasmo](#)

As the storage and renewables market continues to expand, new manufacturing facilities are popping up across the world every day. But with new facilities come new problems that some operators aren't prepared to handle. Enter Andy Klump and his team at Clean Energy Associates (CEA).

Tune in as podcast host and Troutman Pepper Partner Bill Derasmo and his guest CEA CEO and Founder Andy Klump discuss storage buyer risks and rewards, the potential for retroactive ruling on anti-dumping, and insider tips on how to track and identify the right suppliers to avoid being bamboozled by manufacturers.

Follow these links to access CEA's latest [Energy Storage System Supplier Market Intelligence Report](#) and its briefing on the [Department of Commerce Anti-Circumvention Investigation](#).
