Introduction to The Good Bot: Decoding AI and Its Integration Into Health Care

The Good Bot: Artificial Intelligence, Health Care, and the Law

SPEAKERS

[Brett Ashton Mason](#)

Join Troutman Pepper Partner Brett Mason for a podcast series analyzing the intersection of artificial intelligence (AI), health care, and the law.

In this introductory episode, Brett is joined by Morgan Hague from Meditology, a security and privacy firm focused on the health care space. They provide an initial overview of what AI is, how it is currently being integrated into health care, and discuss potential future uses for AI across the health care industry.
