Leading the Lead Revolution With the Consortium for Battery Innovation

Battery + Storage Podcast

SPEAKERS

[William R. Derasmo](#)

Join us as we power up a conversation with Dr. Matt Raiford and Dr. Alistair Davidson from the Consortium for Battery Innovation (CBI). In this episode, we shed light on the often overlooked, yet pivotal role of lead batteries in our everyday lives and their potential in revolutionizing energy storage. Discover the sustainability triumphs of lead batteries, their unique advantages in grid-scale applications, and the fascinating science behind their operation.
