Licensing Artificial Intelligence Systems

SPEAKERS

[Christopher C. "Rusty" Close Jr.](#)

Tuesday, March 22 • 1:00 – 2:30 p.m. ET

This CLE course will guide counsel on addressing the IP and risk allocation challenges when licensing artificial intelligence (AI). The panel will discuss how AI licensing agreements differ from traditional software licensing agreements. The panel will also discuss the key provisions to be considered, including rights to the AI product and liability and indemnification for the use and operation of the AI software.
