Locke Lord Statement on the Two-Year Anniversary of George Floyd's Death

Today marks the two-year anniversary of the murder of George Floyd. We have learned a lot during these last two years, but we know there is still much more work to be done to combat racial injustices and social inequalities, particularly in light of the devastating and inexplicable loss of life as a consequence of racist beliefs recently in Buffalo, Orange County and far too often across the United States. Locke Lord rejects all forms of violence based in race/ethnicity, class, gender, ability, religious or sexual orientation bias. Consistent with our Core Values, individually and as a Firm, Locke Lord remains committed to the diversity of thought, background and perspective in our workplace, with our clients and as we engage our vendors. Together, we can progress understanding in the United States and throughout the world and unite to continue on our journey of fighting against racism and injustice in all forms.
