Microsoft 365 eDiscovery Updates: Legal and Technical Developments

Zoom Webinar

SPEAKERS

[Alison A. Grounds](#) | [Michael I. Frankel](#) | [Chris Haley](#)

Please join us for a two-part webinar as our panel of lawyers and technologists will discuss the legal and technical considerations for corporations using Microsoft 365 for their eDiscovery needs.

First Session – Tuesday, December 6 • 2:00 – 3:00 p.m. ET

We will explore common issues and observations on how clients are using the eDiscovery features in Microsoft 365. We will also review the latest changes that Microsoft has made to the eDiscovery features. Attendees will have an opportunity to participate in a group discussion and share their experiences with Microsoft 365.

Second Session – Tuesday, December 13 • 2:00 – 3:00 p.m. ET

We will take a deeper dive into the technical components of the Microsoft 365 eDiscovery features and share our experiences and best practices. This will be an advanced session demonstrating Microsoft Purview Premium features that are available to corporations that have Microsoft 365 E3 with Compliance add-on or an E5 license. This session will be particularly helpful for technical and legal professionals that are responsible for using Microsoft Purview Premium within their organizations.
