Troutman Pepper is proud to host the Mid-Atlantic Diamond Ventures (MADV) Fall Forum on Thursday, September 12, 2024.

Join us as emerging information technology, SaaS, life science, physical science, and other innovation-based emerging firms present their investment opportunities to qualified investors. All firms have been thoroughly vetted and intensively coached to ensure their presentations contain all information angels and early-stage VCs require. Presenting firms are characterized by proven technologies, large potential markets, defensible IP, potential for rapid growth, strategic and sound revenue models and more. MADV is a program of the Innovation and Entrepreneurship Institute at Temple University.
