Minority Corporate Counsel Association: Global TEC Forum

RELATED PROFESSIONALS

Toyja E. Kelley

Toyja Kelley will serve as a panelist at the Global Technology, Education, & Careers (G-TEC) Forum on June 18 in Sunnyvale, CA. Toyja's panel, "Predictive Analytics in Litigation: Predictive Analytics is Being Increasingly Used in Litigation," will take place at 2:15pm PST.

This panel will delve into the transformative role of predictive analytics in litigation. Panelists will discuss how predictive analytics, powered by artificial intelligence and data science, is revolutionizing the legal landscape. They will explore its applications in eDiscovery, forecasting litigation outcomes, and enhancing the efficiency and precision of legal practice. The panel will also address the challenges and opportunities presented by this innovative tool, and how it's reshaping civil litigation.

The Global Technology, Education, & Careers Forum (G-TEC) is a one-day program designed for attorneys, DEI professionals, and data analysts who want to understand better the complex landscape of DEI and its impact. This event is in-person only.
