March 20 – 21, 2025

Todd Cooper will serve as Panel Chair at NABL U: The Institute on March 20-21, 2025. The Panel is a roundtable discussion of current structures for Multifamily/Affordable Housing, including for-profit transactions, nonprofit transactions, governmental transactions, and the interaction of some or all of these parties in a single transaction.

This year's Institute will engage in topic-based forums led by experienced moderators and will explore both perennial issues and emerging trends in bond law and the municipal market, including ESG factors, changing market structures, and key implementation of the Financial Data Transparency Act (FDTA). Attendees will gain actionable takeaways and earn CLE credits through sessions designed to challenge assumptions and broaden perspectives.
