NABL U: The Institute

Virtual

Troutman Pepper Locke is proud to sponsor NABL U: The Institute 2026, a fully virtual program designed for experienced public finance practitioners. This intimate, discussion-driven event brings together a highly selective group of professionals for deep engagement, pragmatic problem-solving, and candid conversations that extend beyond the conference.

Across a range of sessions, attendees will explore diverse and timely topics in bond law and the municipal market, including recent SEC actions, current issues in municipal disclosure, and market-driven arbitrage concerns. The program also offers robust networking opportunities with prominent bond attorneys from across the country, along with comprehensive CLE sessions designed to challenge assumptions, broaden perspectives, and deliver actionable takeaways.
