---

In this episode of *The Consumer Finance Podcast*, Chris Willis is joined by Ted Augustinos and Kim Phan to introduce The Money Matrix, an upcoming webinar series helping financial institutions navigate privacy, data security, and AI in today's complex digital landscape. The teaser highlights strategies to secure financial data, overcome barriers to adopting AI, and stay ahead of regulatory trends. Each session offers practical guidance to help teams like Neo, Trinity, and Morpheus remain innovative, compliant, and trusted. The series explores how financial institutions can balance innovation with data privacy while leveraging AI responsibly.
