Navigating Clean Hydrogen Tax Credits: Insights and Implications

Energy Law Insights

SPEAKERS

Anne C. Loomis | Melinda “Mindy” McGrath

Dive into the complexities of clean hydrogen production and the associated tax credits with Troutman Pepper Partners Anne Loomis and Mindy McGrath. In this video, they explore the Inflation Reduction Act’s new production tax credit for clean hydrogen, the stringent requirements set by the IRS, and the potential impact on the industry. Learn about the three pillars of eligibility, the challenges faced by developers, and the future of hydrogen as a sustainable energy source.

- What is the importance of incentivizing the production of clean hydrogen?
- How do companies qualify for the new production tax credit?
- How has the IRS’s position on the “three pillars” affected the industry?
- What are the potential obstacles to the development of hydrogen technologies?

The energy sector is currently undergoing seismic change and with that change comes tremendous opportunity. Our energy video series, which features nationally recognized Troutman Pepper partners as they discuss a vast array of unique and complex challenges that face the energy industry.
