Thursday, July 20 • 2:00 – 3:15 p.m. ET

With the recent explosion of AI awareness and exploration, many companies are trying to decipher the AI Trifecta – Privacy, IP, and Data Management Practices. In the last several months, there has been a wave of developments relating to internal AI procedures, acceptable use guidelines, and training for employees. Privacy, IP, and other company lawyers are struggling with how to empower business and IT while also trying to balance risk, reward, and legal obligations.

Join the first webinar in our new series – AI Risk, Reward, and Regulation – to hear from our Troutman Pepper lawyers and industry experts as they discuss the following critical issues facing companies and the legal profession today:

- Overview of evolving industry-specific use cases, benefits, and risks of AI
- Analysis and predictions into existing and emerging U.S. and global laws, regulations, and industry codes
- Benchmarking and the mechanics of developing AI policies
- Insight into critical AI-related legal conundrums – global privacy protections, preventing discrimination, IP rights in output, and building databases versus data scraping
- Bonus: Q&A session

During the course of this webinar, you will hear from our special guests to provide an in-house perspective on these important AI topics.

Jerry Lewis served as the SVP, Sr. Deputy GC & Chief Technology Counsel of Comcast for over 20 years. Recently retired, Jerry now serves as an Executive Council Member for the Center for Law, Science, and Innovation at Arizona State University.
