Thursday, May 26 • 12:00 – 1:00 p.m. ET

California was the first state to enact a comprehensive state privacy bill with the California Consumer Privacy Act of 2018 (CCPA). Although the CCPA went into effect on January 1, 2020, it was significantly overhauled during California's November 2020 General Election, when the California Privacy Rights Act of 2020 (CPRA or the Act) was adopted.

Over the last few weeks, the Troutman Pepper Cybersecurity, Information Governance, and Privacy team produced a [five-part series](#) that provided a detailed overview of the CPRA and how it compares to its predecessor – the CCPA. During this webinar, we will summarize the series and discuss the major action items companies have to start implementing now to be prepared by January 1, 2023, the CPRA effective date. Key topics will include:

- Consumer Rights
- Notice and Disclosure Obligations
- Data Processing Obligations
- Litigation and Enforcement

At the conclusion of the series, Troutman Pepper will host a webinar on the CPRA on Thursday, May 26, 2022. To register, please click [here](#).
