Navigating the Intricacies of Corporate Espionage: A Focus on Poaching and Raiding

Zoom

SPEAKERS

[Evan Gibbs](#) | [Megan Conway Rahman](#) | [Michael J. Hartman](#) | [William M. Taylor](#)

Thursday, June 6 • 2:00 – 3:00 p.m. ET

Please join members of our Corporate Espionage Response Team as they delve into the intricate landscape of corporate espionage, with a special focus on poaching and raiding among corporate competitors. This webinar will provide valuable insights about targeted, staggered, and en masse hiring of multiple individuals and offer practical strategies to navigate these complex issues.

Our team will discuss:

- **Noncompetes, nonsolicits, and related issues:** Our panel will explore government enforcement, including the new FTC rule on noncompetes and antitrust enforcement related to no-poach agreements. We will also address business-to-business issues, such as contractual claims, tortious interference, breach of fiduciary duties, and civil conspiracy.
- **Confidential information and trade secrets theft:** Our panel will discuss government enforcement under the Economic Espionage Act and the Defend Trade Secrets Act (DTSA), including recent prosecutions. We will also delve into forensic investigations and emerging claims/trends.
- **Best practices and preventative measures:** Our panel will share practical tips and preventative measures to help your organization protect itself in scenarios involving corporate espionage, poaching, and raiding.
