Nora Brownell: An In-Depth Conversation With the Former FERC Commissioner

Battery + Storage Podcast

SPEAKERS

[William R. Derasmo](#)

Get ready to plug into the electrifying mind of Nora Brownell. This week, Bill sits down with the former FERC commissioner and current partner at Clean Energy Ventures to discuss everything FERC-land and beyond.

Listen in as they chat about the current regulatory landscape, storage market trends, and the challenges impacting the energy industry, including grid capacity and the need for balance between energy customers and investors.
