Optimizing Your Microsoft 365 Data Footprint: Harnessing Purview Data Lifecycle Management

Zoom

SPEAKERS

[Jason Lichter](#) | [Jennifer Shea Knox](#) | [Antonio S. Avant](#)

Please join us for an insightful discussion about Microsoft's Purview Data Lifecycle Management tools. Our esteemed panel of attorneys and technologists will delve into the legal, technical, and operational considerations for organizations considering using Microsoft 365 to manage retention and disposition of content. The panelists will discuss the following topics:

- Why organizations should consider using Microsoft's Data Lifecycle Management tools to better govern their data footprint
- The key principles and features of Purview's data management suite
- Practical tips for implementing these tools in your organization
